## MEDIA ACCREDITATION TO COLLATION CENTRES

Since the memo directing the Commission's staff at the District and Regional levels, to select media houses for accreditation to its collation centres was made public, the Commission has received numerous calls from a number of its Media Partners expressing concern about the quotas granted to Media Houses.

As a listening Commission we are engaging with the leadership of the Ghana Journalists Association (GJA) and the Ghana Independent Broadcasters Association (GIBA) on the issue and trust that we will arrive at an arrangement that is both workable and acceptable. The Commission is keen on ensuring the highest level of transparency in its operations, hence the opening up of all its Constituency, Regional and National Collation Centres to the Media.

In doing so, the Commission is mindful of the need to ensure an orderly and peaceful process at all the Collation Centres hence the quotas on the number of persons who can access the Collation Centres at any given time.

The Commission is confident that its engagement with the leadership of the GJA and GIBA will lead to acceptable outcomes.

Thank you.

Samuel Tettey  
Deputy Chairman, Operations
